Arrive at Port Blair. On arrival transfer to the hotel. After lunch in the evening will have an opportunity to view the **Light & sound show** at the Cellular Jail. Dinner and overnight stay in a hotel.

**DAY 02. PORT BLAIR**

After breakfast, in the morning we will take a **Ross Island** trip to visit - Ruins of once Headquarters of Andaman & Nicobar Islands in the British Raj. It was the Administrative Headquarters for the islands, before an earthquake rocked it in 1941. The headquarters were then shifted to Port Blair. One can see remnants of an opulent past in the ruins of the church, swimming pool and the chief commissioner's residence with its huge gardens and grand ballrooms. There is also a cemetery and a small museum managed by the Indian Navy. The museum has on display a collection of old records. The island presently houses the ruins of the state Ballroom, the Chief Commissioner's House, the Government House, Church, the old 'Andamanese Home', which was <sup>[1]</sup> Hospital, Bakery, Press, Swimming Pool, and Troop Barracks, all in dilapidated condition, reminiscent of the old British regime. Ever since Dr. James Pattison Walker arrived in Port Blair aboard the East India Company's steam frigate 'Semiramis' on 10 March 1858, this island remained under British occupation till 1942. From 1942 to 1945, the island was under the occupation of Japan. However, the allies reoccupied the island in 1945 and later abandoned it. During British occupation, this island was the seat of power of the British. Then proceed to the **North Bay** - Coral Island tour where you can enjoy swimming & have an Opportunity to take a Glass Bottom Boat Ride to view Corals (optional). The corals at North Bay are rather good and spread over large areas. You're very likely to spot many fish, a lobster, or even clams on the coral reef. Dinner and overnight stay in a hotel.

**DAY 03. PORT BLAIR – HAVELOCK**

Early morning departs for **Havelock**: with an area of 113.93 km<sup>2</sup>, the island is named after a British General, Henry Havelock who served in India. The island's current population consists mainly of Bengali settlers. Many of these settlers have Bangladeshi origin as these people were given settlement by the Indian government after the 1971 war between India and Pakistan. Beach No. 7 on the western coast, better known as "Radha Nagar" Beach, is one of the most popular beaches on Havelock and was named "Best Beach in Asia" by Time in 2004.

We'll depart for Havelock at 06.30 Hrs. reach Havelock by 08.30 Hrs. After breakfast, spend time on the well-known beach, **Radhanagari**. Dinner and overnight stay in a hotel.

**DAY 04. HAVELOCK**

After a leisure breakfast, we sailed for **Elephant Beach** in a Mechanized Dinghy. The travel time is around 35-40 minutes to reach Elephant Beach. This beach has one of the best coral reefs in the world & the underwater marine life is very lively & colorful. One session of Snorkeling will be complimentary here. Please do not forget to take snacks for the trip and lots of drinking water & changing dress for the day trip. After the completion of the coral island tour, return back to the respective resort in Havelock Island.

#### DAY 07. PORT BLAIR

**Baratang**, 100 kms north of Port Blair by bus or sumo passes through Jarawa Reserve Forest. This island between south and middle Andaman has beautiful beaches, mangrove creeks, mud-volcanoes, and limestone caves. The Andaman trunk road to Rangat and Mayabunder goes through this island. Limestone caves can be explored with the permission of the forest department at Baratang and proper local guidance.

**LIMESTONE CAVES**: The journey through the Baratang creek is a refreshing experience .as the speed boat knifes its way through the water of the Baratang creek, the sight of tiny islands and mangrove vegetation provides a suiting effect to the eyes. The serrated edges of the limestone blocks shine in the dark, there is a narrow walkway inside with constant dripping of minute water drops from the ceiling.

**MUD VOLCANO**: The present eruption covers an area of over 1,000 square meters and has resulted in the formation of the sub-circular mound of about 30 meters in diameter with a height of about 2 meters at the center. Moreover, their occurrence suggests a tectonically unstable terrain, and hence they can cause damage to man and property of the nearby human settlements/villages. Overnight stay at Port Blair.
